PROFESSIONAL PROFILE

Fullstack Developer with **10+ years of coding experience** and **20+ shipped projects**, delivering end-to-end products across three surfaces — **web** (MERN + Next.js), **mobile** (React Native) and **desktop** (Electron, PyQt5, Tkinter). On the back end I'm equally comfortable in Node.js and Python, with PostgreSQL, MongoDB and Redis as data layers, all running on Linux servers.

I place a strong emphasis on writing clean, well-structured code and strictly adhering to international standards and modern development methodologies. I learn new technologies quickly and aim to add both technical and strategic value to every project.

TECHNICAL COMPETENCIES

► Frontend & Web

Dynamic, responsive interfaces with React.js and Next.js. Modern JavaScript (ES6+), semantic HTML5 and accessible, performance-tuned CSS3.

► Backend & APIs

RESTful API design on Node.js / Express. Server-side automation and services in Python — authentication, validation, queues and caching with Redis.

► Mobile & Desktop

Cross-platform mobile applications with React Native. Native-feel desktop tools with Electron (Node + Chromium) and Python (PyQt5, Tkinter).

► Databases & Infrastructure

Schema design, indexing and performance tuning on PostgreSQL and MongoDB. Caching with Redis. Deployment and operation on Linux. Team-based code workflow on Git / GitHub.

EDUCATION

Sumgait State University

Bachelor — Power Machinery Engineering

Aug 2015 — Jul 2019 · Sumgait, Azerbaijan

My engineering background shaped my systematic thinking, analytical problem-solving and engineering mindset — qualities I apply daily when designing complex technical solutions.

PROFESSIONAL STRENGTHS

- **Cross-platform delivery** — single product vision shipped across web, mobile and desktop.
- **End-to-end ownership** — managing all stages from idea to deployment.
- **Engineering mindset** — analytical, systematic approach to technical problems.
- **Fast learner** — mastering new technologies and frameworks in a short time.
- **Trilingual** communication (Azerbaijani, Turkish, English) — effective in international teams.
